Professional Experience

Binghamton University (SUNY)

Binghamton, NY

RESEARCH PROJECT ASSISTANT

May.2017 - August.2017 & December.2017 - Present

- Working on Operating System Virtualization concepts: virtual CPU scheduling and processes pinning, aiming at improving the performance of the virtual machine
- Working on live replacement of hypervisor in order to avoid the failure of the hypervisor

Binghamton University (SUNY)

Binghamton, NY

GRADUATE TEACHING ASSISTANT

August.2017 - December.2017

- Working on research project 'Performance impact of increasing the virtual CPU count in virtual machines' aiming to improve the performance and keeping it constant with increasing number of virtual cpus in virtual machine by eliminating process and threads scheduling and load balancing
- Graduate teaching assistant for CS550 - Operating Systems & CS451/551 - Systems Programming
- Conducting classes and exams, clearing student doubts, correcting homeworks, tests and assignments

Evry India Pvt Ltd

Bangalore, India

SOFTWARE ENGINEER ASSOCIATE

July.2015 - July.2016

- Developed backend in MVC model using C# and database connectivity using ADO.NET, building REST API's for communication and writing various business logic
- Developed GUI in MVC model using JavaScript & HTML
- Developed unit test cases for complete coverage of both the frontend(Javascript & HTML) and backend(C#) code

Education

Binghamton University (SUNY)

Binghamton, NY

MASTER OF SCIENCE IN COMPUTER SCIENCE

August.2016 - May.2018 (Expected)

- Courses: Computer Algorithms, Adv Topics in Cloud Computing, Computer Networks, Systems Programming, Operating Systems, Programming Languages, Computer Origination and Architecture
- GPA: 3.78/4.0

Visvesvaraya Technological University

Mangalore, India

BACHELOR OF ENGINEERING IN COMPUTER SCIENCE

August.2011 - May.2015

- Courses: Computer Networks, Design and Analysis of Algorithms, Object oriented programming, Relational Database Management, Software Engineering, Microprocessors, Compiler Design

Projects

Live Replacment of Hypervisor

Binghamton, NY

RESEARCH PROJECT WITH PROF. KARTIK GOPALAN

December.2017 - Present

- Designing and developing a system with the goal to replace the running hypervisor with the new one on the go
- Replacing the running hypervisor with the fresh copy while eliminating the need to stop running virtual machine

Performance impact of increasing the virtual CPU count in virtual machines

Binghamton, NY

RESEARCH PROJECT WITH PROF. KARTIK GOPALAN

May.2017 - Present

- Developing with a goal to keep the performance of the virtual machine constant with increasing number of virtual cpus
- Aiming to increase the performance of the virtual machine by pinning the processes to the virtual cpus

Socket Programing

Binghamton, NY

DEVELOPER

October.2017 - November.2017

- Conference application with client server architecture
- Virtual network routing using Distance Vector routing algorithm
- HTTP Proxy with Caching

Good Faith Estimate

Bangalore, India

DEVELOPER

July.2015 - May.2016

- Developed at Evry India, for a USA based mortgage company in C# ASP.NET MVC
- Implemented new logic and functionalities as per USA mortgage requirements in agile methodology

ISpan

Bangalore, India

DEVELOPER

March.2016 - July.2016

- Developed at Evry India Pvt Ltd an Internal system used to track the employee efforts
- Designed and developed in C# ASP.NET as per the company requirements

Data Embedding in Medical Images

Mangalore, India

DEVELOPER

December.2014 - April.2015

- Designed and developed in coordination with Balmatta Diagnostic And Research Center Ltd Mangalore, Data hiding in MRI DICOM image Based on Region of Interest using discrete cosine transformation

Technical Skills

Languages

C, C#, Java, HTML, CSS, Javascript, Shell script, JQuery

Other technologies

ASP.NET, MVC, MS Visual Studio, Eclipse, Jira, T-SQL, SVN, Github, Agile Methodology
